

# Rene Anderson

Scarborough, ON | 647-981-7602 | Rene\_Anderson@hotmail.com | <https://github.com/greenfig>

## SKILLS

**Languages:** C++, C#, CSS, HTML, Java, JavaScript, Python, PHP, VBA

**Frameworks:** Asp Net/Core, MVC 5/MVVM, Node.js, Vue.js

**Databases:** NoSQL, PostgreSQL, MySQL, MSSQL, SQLite3

## EXPERIENCE

### Software Developer Intern

September 2019 – December 2019

Websdepot Technology Partners Inc. | Markham, ON

JavaScript / MSSQL / MYSQL / PHP

- Took initiative to lead the project for the improvement and update of front and back-end frameworks by analysing current systems, defining system requirements, then documented, developed, and tested modifications to existing applications resulting in improved security, efficiency, reliability, and maintainability of the codebase.
- Collaborated with and provided guidance to developers by communicating with technical and non-technical team members to enhance maintainability in addition to identifying and rectifying performance bottlenecks.

### Database Administrator Intern

May 2014 – September 2014

PartsEngine Canada | Richmond Hill, ON

Java / SQL / VBA

- Redesigned business processes by automating repetitive tasks thereby increasing consistency, accuracy, and efficiency.
- Implemented various multithreading techniques in Java, which greatly increased departmental productivity that enabled the completion of tasks ahead of schedule.

## PROJECT HIGHLIGHTS

### ATBCheck.com

July 2018 – July 2019

- Engineered a risk assessment application, using ASP .NET Core/Node.js while identifying and resolving bugs from client feedback, that significantly reduced the time and cost needed for companies to comply with the Financial Intelligence Unit of Trinidad and Tobago's laws.

### Trinbagohotspot.com

January 2016 – February 2018

- Single-handedly designed, coded, and tested a content management system, using ASP .NET, that provided users with the ability to manage their own ads on a free classified ad platform due to a perceived need for a new technology to facilitate better communication in personal trading.

## EDUCATION AND TRAINING

### Bachelors of Technology – Software Development

Seneca College | North York, ON

December 2019

- Gained fundamental knowledge of Databases, Algorithms, and Software Development
